Join the Electric Decade.

Join the Power Summit.

CEOs, Ministers and high-level EU policy makers are all lined up to shed light on how to accelerate the uptake of clean electricity. Together with innovators, thought leaders and investors, they will show us the Electric Decade.

The 2020s is the decade for digital & decarbonised electrification. The time is right for an accelerated uptake of clean electricity across all sectors: delivering carbon emission reductions, economic recovery, clean air and new jobs. This is a huge 10 year opportunity: An Electric Decade.
